OUR INTRODUCTIONS

During the past three seasons, we have offered six new varieties of Gladiolus to the trade. So far the reception has been very favorable and many recommendations have been received from our customers. Three of these varieties are offered for the first time this season. Of two of these, we have grown a considerable stock before introduction, so we are therefore able to offer them at a figure much below their actual value. Try these varieties this season. We believe you will find them worth while.

Attention (1933). Predominating color peach red with Martius yellow throat. A Van Fleet seedling but of stronger color. The florets are of medium large size, plain petaled, of the wide open type. Excellent substance. Tall, strong growth. Never crooks. Five flowers open.

Blue Moon (1931). In addition to its color, its outstanding feature is earliness, being the first to bloom. Good size, up to $4\frac{1}{2}$ inch diameter. Mauve to Chinese violet or hyssop violet, Rood's violet in center. Extra good propagator. Medium height. Several blooms open. Color somewhat resembles Othello, but is earlier, healthier, better propagator and does not crook.

Eugenie (Piper 1932). Very fine novelty color: geranium pink with strong blotches of lemon chrome, rose doree line surrounding blotches. Placement and size good. The color may call to mind Louis Hemon, although it is entirely different and the color combination is much more pleasing. Flower is much larger and makes a good spike.

Mountain Rose (1933). For some time the trade has needed an early lavender and we believe this variety will be useful in filling this want. It is a seedling of Sweet Lavender and thus gets its earliness. The color is much better, however, being rose pink, flushed light rose purple with small purple feather. The effect is a rose lavender. Good substance. Plain petaled. About six open.

Swansdown (1933). This is a very lovely white. Florets are of medium large size and of an extremely lovely form. In spite of the size of the flower, there is an utter lack of coarseness and the ruffling gives it a lacy, dainty appearance found in no other white. It has the chasteness of Europa. About six well-placed flowers out.

Wings of the Morning (Miller 1931). This variety is becoming known all over the country. A Phipps seedling of outstanding substance. An early bloomer. Color: eosine pink, shading to begonia rose and to white in throat; small blotch of rose doree in throat. Good size, up to five inches. About 16 buds, with nine or ten out. Straight spike. Will stand hottest weather but repays good culture.

Prices on the above are found in list of varieties. To get you to try them we offer a large bulb of each of this year's three introductions for \$2.50, a large bulb of all six for \$3.75.

Another portrait for the Glad growers' gallery. "Ham" Blake — christened John Hamilton, — junior member of Paul-Ham Gardens, has assisted his father ever since we began business. He is a freshman in Whitman college this season, and his studies may lead him away from the Glad business. While he is still with us, we wish to introduce to you the young man who for several years has been the youngest commercial Glad grower.

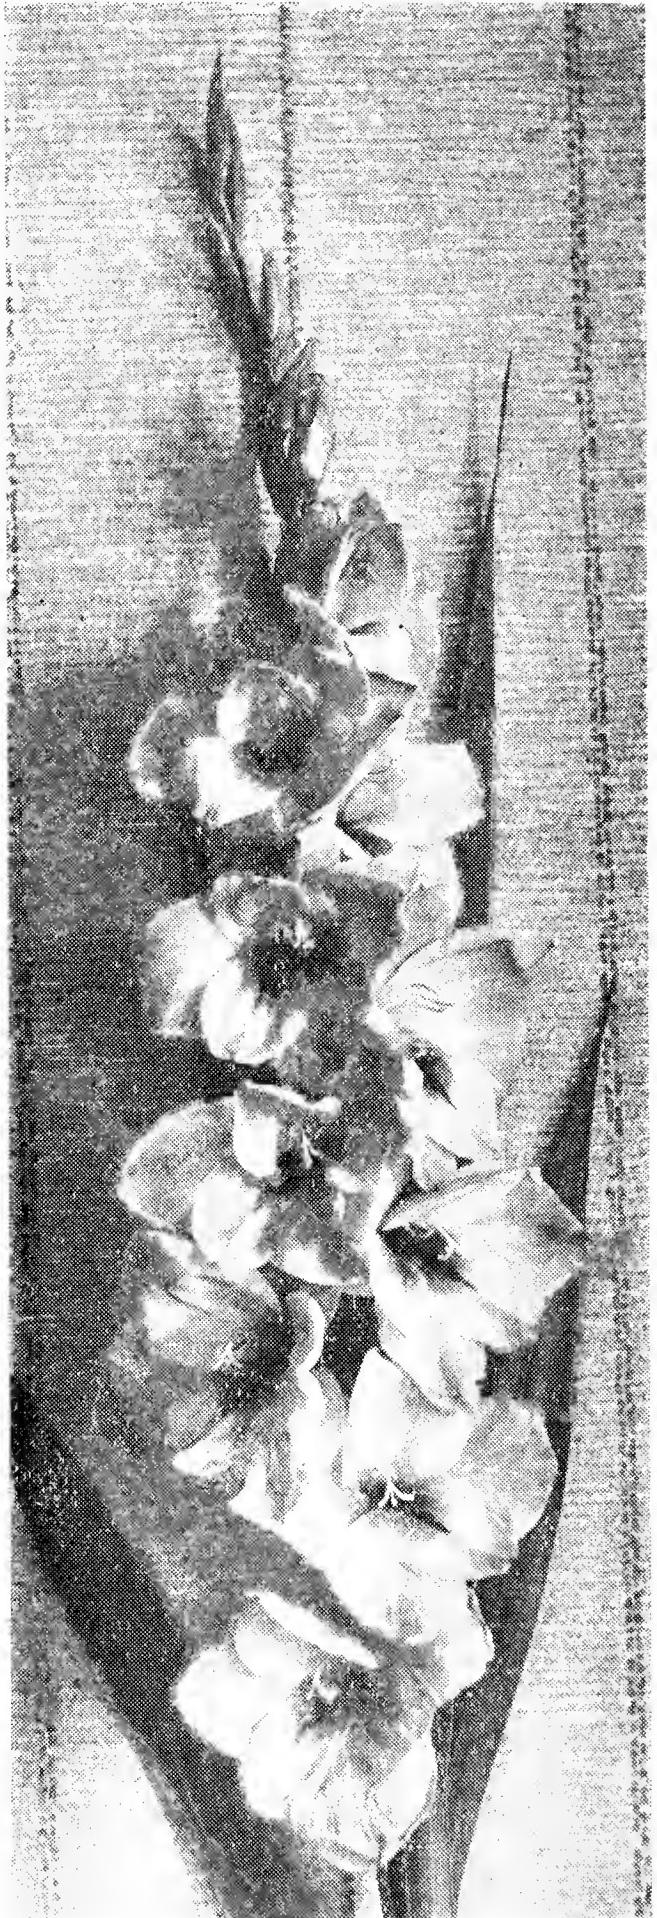

PAUL (His Dad).

"OUR BUSINESS IS GROWING"

Lucifer is one of Errey's best. See page 20.

LUCIFER

NERISSA

Nerissa is one of the most promising of the newer Australian varieties. Priced on page 24.

Paul-Ham Gardens

"Our Business Is Growing"

821 SEVENTH AVENUE
LEWISTON, IDAHO

Hooray, friends and patrons, old 1932 is over, and a new leaf appears. The fact is, that we have little reason to kick, because, although you may dub us a Munchausen for making the statement, Paul-Ham Gardens again made a gain in business—not a big increase but enough to say that we sold more dollars' worth of bulbs than ever before. There are probably several reasons: we pushed sales more, we strove to give satisfaction, our prices were more than reasonable, people had more leisure for flower growing, and more of us have begun to realize that a Glad garden is a mighty good place to forget our worries.

At this writing, not all growers have their catalogs and price lists out so, to protect our customers we are going to make the offer we did last year: we will meet the catalog price of any reliable grower. We do not guarantee to duplicate prices on special offers in magazines nor confidential discounts, but, when your order is made up, if you find the total price for the lot is less in some other dealer's list, send us the amount he asks and give us his name and we will fill it, and thank you.

Crop was grown in new soil, with sufficient moisture for irrigation. Stock treated before planting to prevent disease. Patch was carefully checked over almost every day to destroy rogues. We guarantee all stock free from disease and true-to-name and will replace all found otherwise.

Careful checking by ourselves and federal inspector has found no Glad thrips. Under present conditions it is impossible to say how long this condition can be maintained. We are trying to keep out this pest by fumigating every bulb we buy with naphthalene immediately upon receipt. If you wish we will place naphthalene flakes in sacks before shipment. This is believed to be the easiest and best way of fighting the pest.

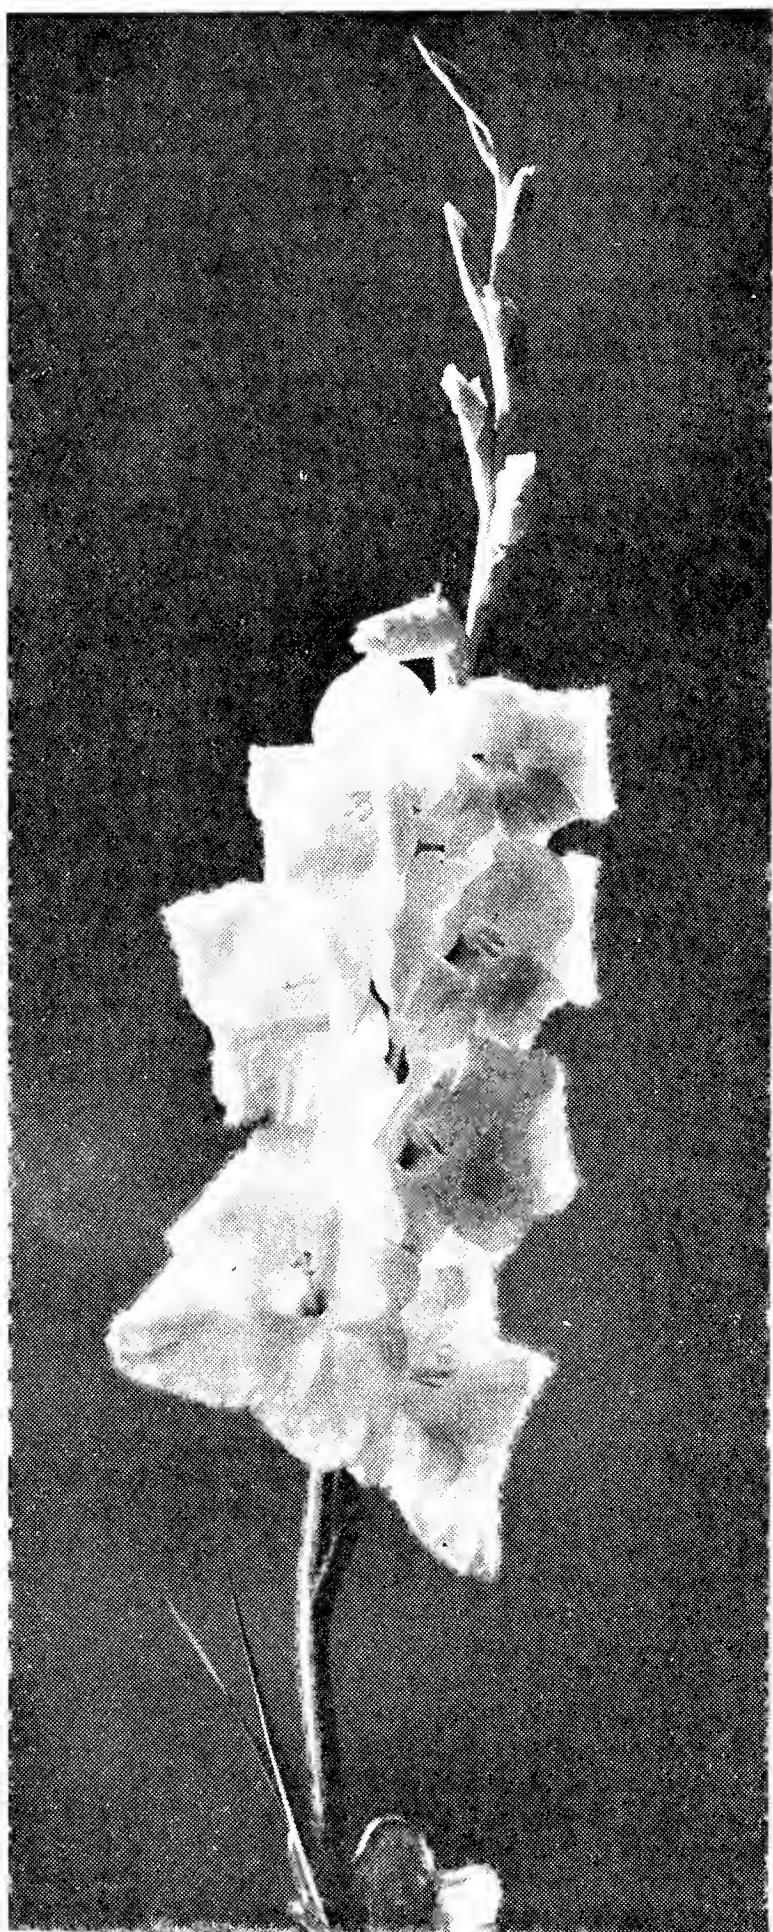

We do not substitute varieties unless given your permission. If out of a size, we will substitute the next size unless forbidden. We can't guarantee bulblets to sprout nor warrant bulbs to grow or bloom. We can't tell under what conditions you grow them and that is not our responsibility. It is our purpose to see that you receive stock of first quality.

We try to keep our list up to the times. We can't have all the good ones but do believe we have a very representative list of varieties. There may be some varieties that you desire that we do not list. In this case, we will be mighty glad to get these varieties for you if possible. We have very pleasant business relations with some of the largest and best growers in the Northwest and thus we are able to obtain almost any quantity of any variety. Don't be backward in calling on us.

We want you old customers to know we appreciate the business we have received, and we thank you for the many other customers who have been added to our list through the recommendations of old patrons.

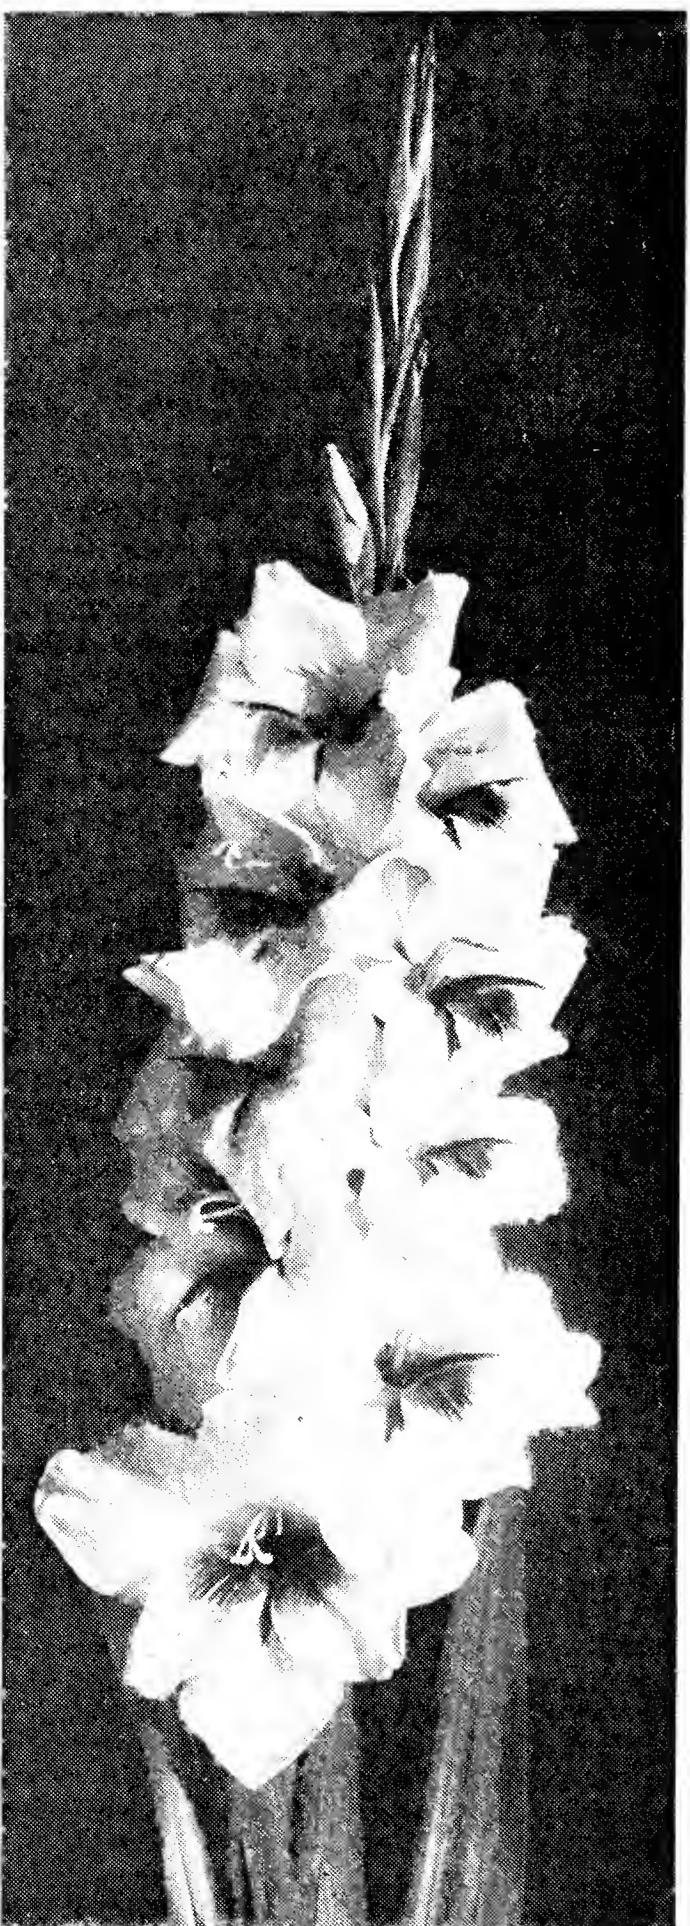

You will find the descriptions and prices are given in a different style this year. We are trying to make this as clear as possible and a careful reading of page five will be of value. We realize the imperfections of the listings but believe that these can be improved in the years following. We have tried to be fair in our opinions, to you, to the introducers and to ourselves. We mean for this catalog to be of value to you and can only tell how worth-while it is by the business we receive from it.

"OUR BUSINESS IS GROWING"

MAID OF ORLEANS

*Maid of Orleans, listed on page 21,
is one of the loveliest whites.*

A. H. WOODFULL

*Woodfull shows promise of being a
great exhibition variety. Listed on
page 7.*

Varietal Descriptions and Price List

The pages immediately following contain prices and descriptions of varieties now in stock in salable quantities.

In arranging this part of the catalog, we have striven to give a maximum amount of information in the briefest space possible. In the top portion of the page are given the descriptions, the first line being a rating of the main qualities of the specific variety, arranged in tabular form. Following this, our personal observations and opinions are given. In other words we try to give you the stark facts about each Glad as well as the impression the variety has made upon us. In the lower portion of the pages, the price list appears for the kinds listed on that page. We have tried to arrange this so as to be easily understood. Where not specified, all bulbs and bulblets are quoted at price per each, and, where not stated otherwise, prices are prepaid in the United States and Canada, provided order amounts to \$1. (Foreign orders of more than \$5 sent prepaid, except items marked collect.) In many cases wholesale prices, f.o.b. Lewiston, are given in the list, so as to allow growers and dealers who buy in quantity to purchase at very low rates. We are glad to give special quotations on large lots. Write us.

The tabular descriptions used in the list are the results of last year's observations by two growers. It may be that the headings and abbreviations in columns need some explanation. "Sub.", meaning substance has been determined from thickness of petals, ability to stand heat and wind in field and behavior after cutting. Substance is classified by using initials of Fair, Good and Excellent. Under type, most varieties come under the abbreviations for Grandiflorus, Primulinus or Primulinus Grandiflorus. Several bear "L" for Laciniated, while a few are marked "M" for Miniature or "N" for Needlepoint. Ruffled varieties are marked "R". The blooming season listings are designated as Early, Early Midseason, Midseason, Late Midseason and Late, the initials of these being used as abbreviations. The diameter of a representative floret is expressed in inches, while the height is shown as Short, Medium or Tall. We believe "No. Out" is self explanatory.

To conserve space the following abbreviations are used for names of introducers or originators: A, Austin; Alk, Alkemade; B, Barth; Bet, Betscher; Br, Brown; Bur, Burbank; C, Coleman; Cr, Crow; D, Diener; Dec, Decorah; Dg, Miss Douglas; El, Ellis; Er, Errey; F, Fischer; Gil, Gilrey; Hol, Holland; Hr, Hornberger; K, Kunderd; Kin, Mrs. Kinyon; Kir, Kirchoff; Lem, Lemoine; M, Mair; Mil, Miller; Mrs. H, Mrs. Hoeg; Mz, Metzner; Pal, Palmer; Pf, Pfitzer; Pl, Powell; Pp, Piper; Pr, Prestgard; Sal, Salbach; St, Stevens; Sy, Symons; V, Vaughan; Vel, Velthuys; Vil, Vilmorin.

Terms and Discounts

Stock will be held until April 1st, if desired, if 25% is paid down to hold order, but discounts not allowed unless full amount is paid at time of order. Net cash before shipment or balance C. O. D.

One at one-eighth of ten price; five sold at half the ten price; 25 at the 100 rate; 250 at the 1000 rate; pint at the quart rate. No item filled for less than 10c unless a less price for a certain quantity is quoted in list.

Sizes: Large, above 1 $\frac{1}{4}$ inches; medium, between $\frac{3}{4}$ and 1 $\frac{1}{4}$ inches; small, under $\frac{3}{4}$ inch. No. 1, over 1 $\frac{1}{2}$ in. diameter; No. 2, 1 $\frac{1}{4}$ -1 $\frac{1}{2}$ in.; No. 3, 1-1 $\frac{1}{4}$ in.; No. 4, $\frac{3}{4}$ -1 in.; No. 5, $\frac{1}{2}$ - $\frac{3}{4}$ in.; No. 6, $\frac{1}{4}$ - $\frac{1}{2}$ in. Expensive bulblets selected and liberally counted.

On account of the present fluctuation of foreign exchange, we must ask customers in foreign countries to remit by international money order or United States exchange. Foreign currency will be credited only at exchange rate current when received.

All stock is offered and orders accepted subject to prior sale.

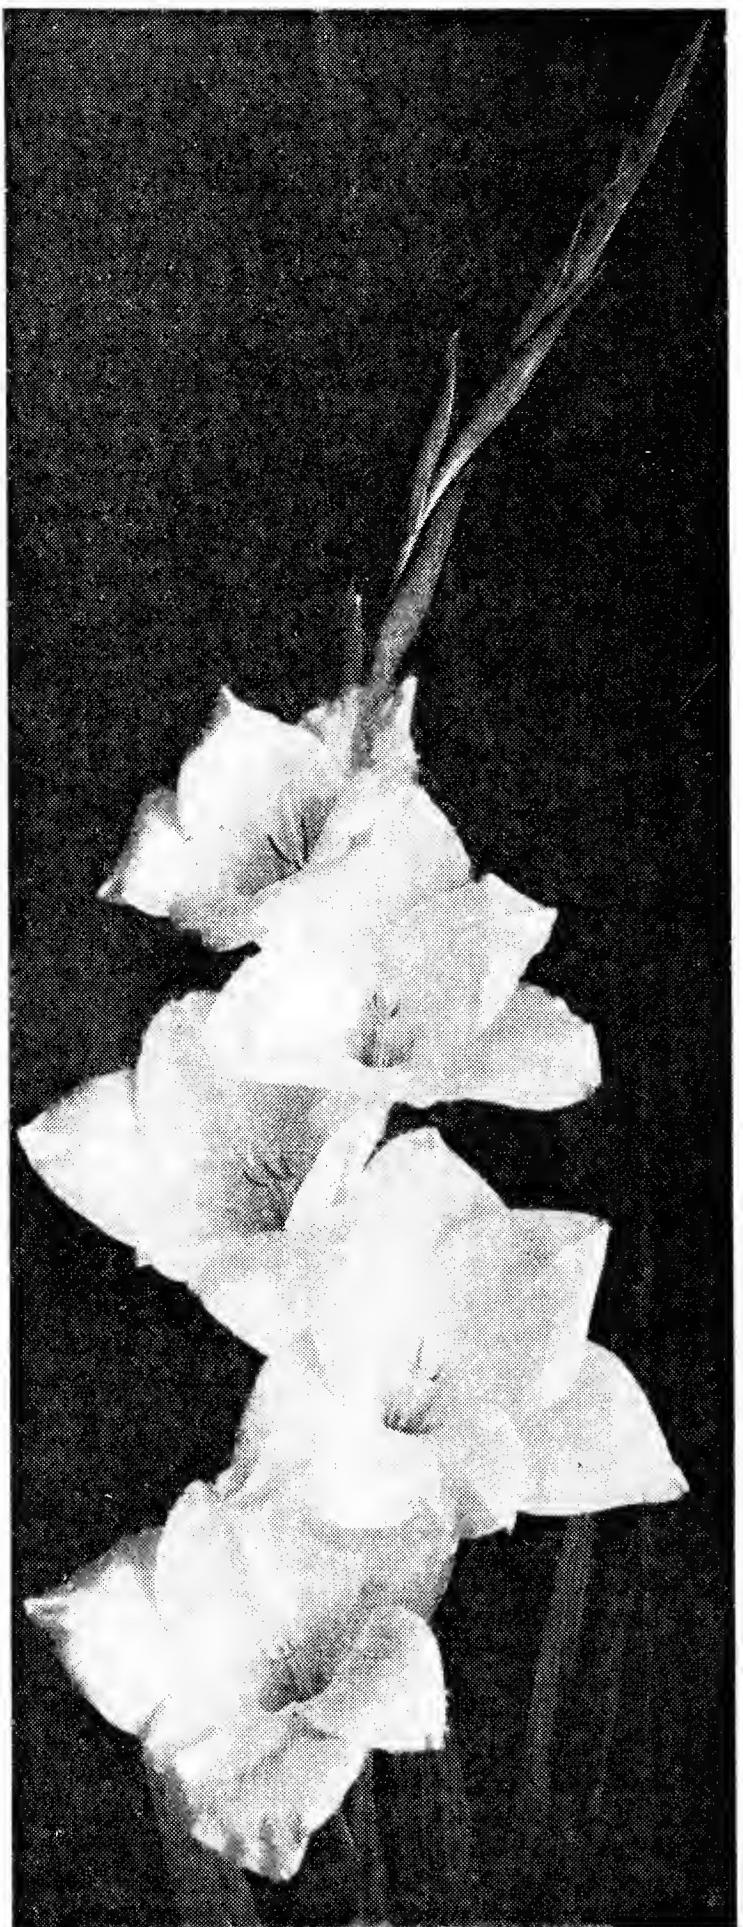

DISCOUNTS: The following discounts apply only to prepaid prices. Prices listed "collect" are net cash. Discounts do not apply to collections. Until March 15th: 15% on orders of \$5 or more, 20% on orders of \$15 or more, 25% on orders of \$25 or more. After March 15th, these discounts are reduced by 5% in each case. These are cash discounts, a 20% cash discount being equal to 25% extra in bulbs.

We appreciate remittance by money order. Personal checks are credited subject to payment. If you send stamps for small orders, please send the 3c denomination, as we sometimes become overstocked on the larger ones.

COMMANDER KOEHL

Commander Koehl has won a lot of blue ribbons. See page 11.

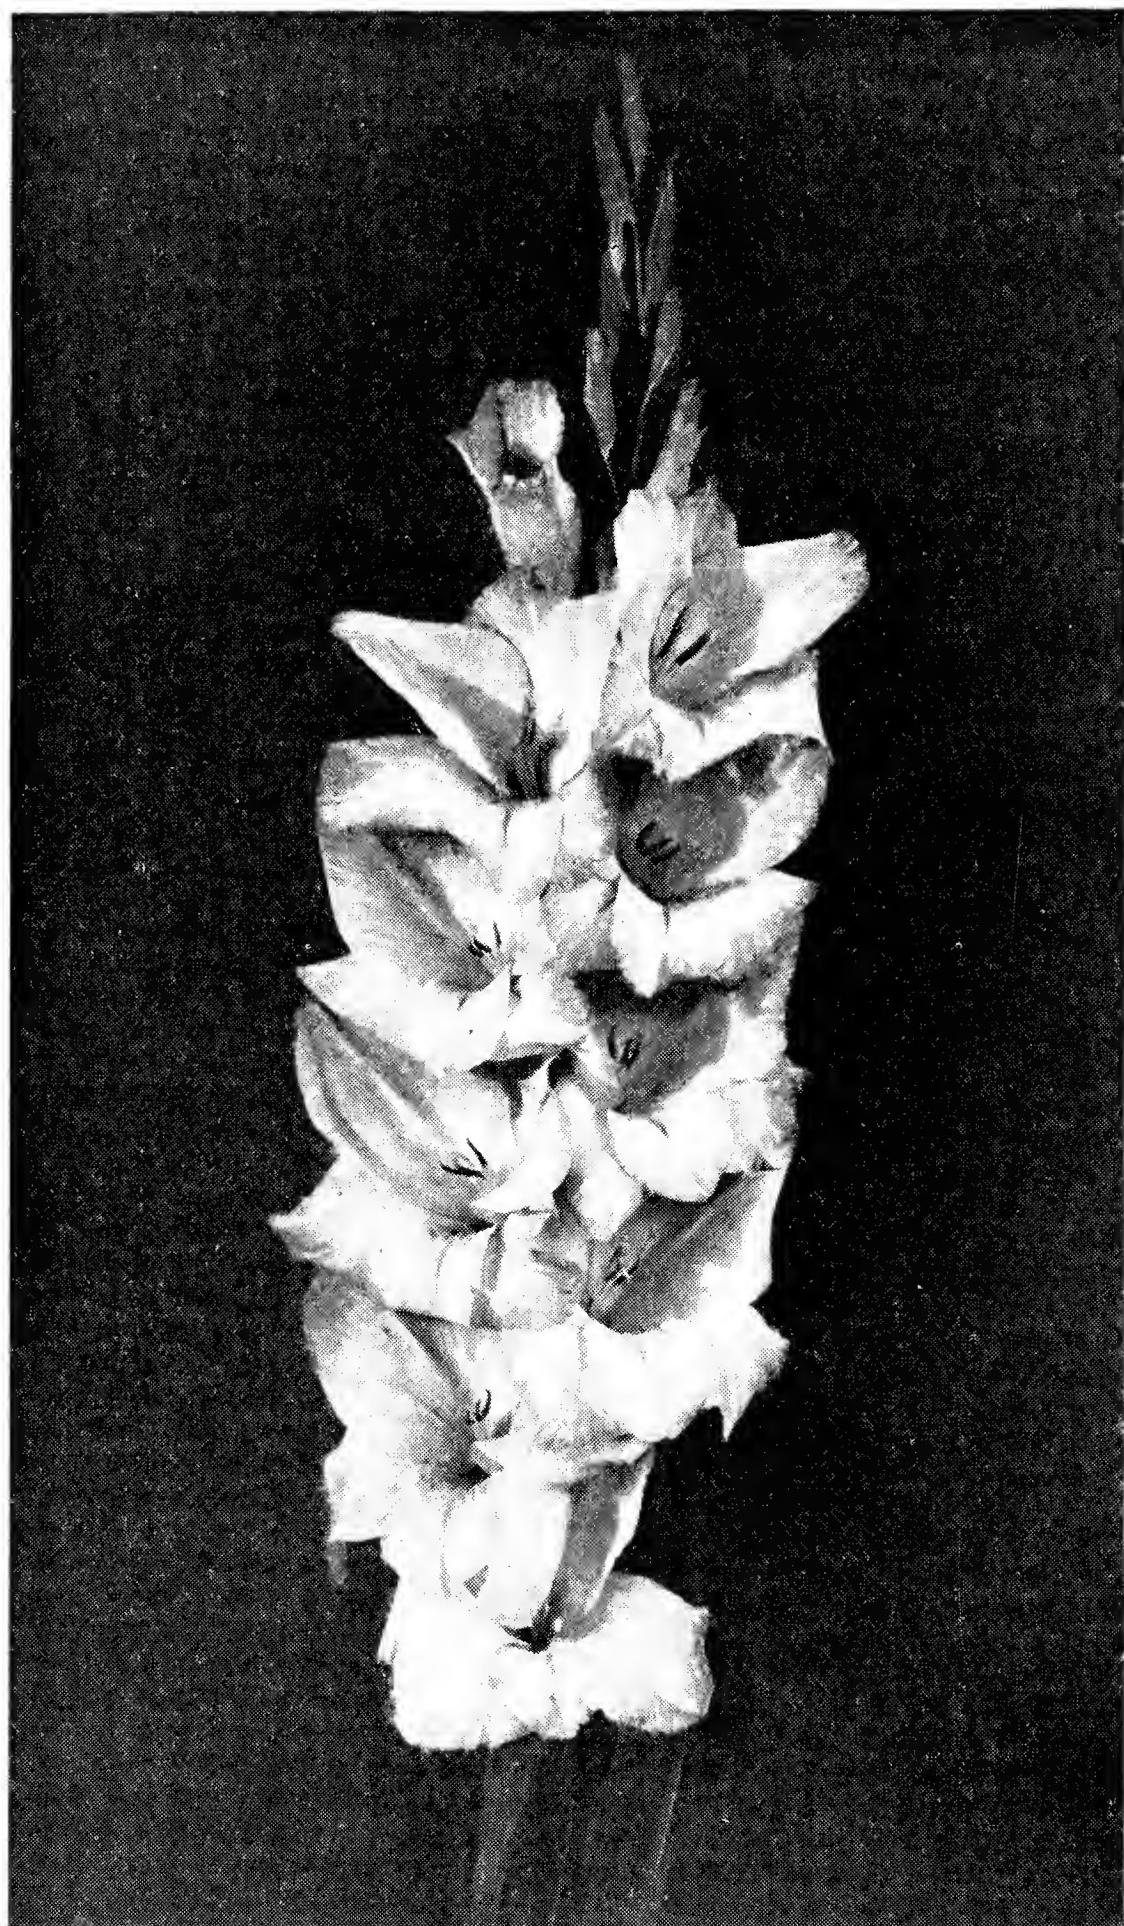

ALBATROS

Many still think Albatros the greatest of all white Glads. Listed on page 7.

Variety — Originator — Color and Markings	Sub.	Type	Blm. Sea.	Dia. In.	Ht.	No. Out
ACADIA (Pal) Geranium pink, cream throat, pink feather <i>Distinct pastel shade.</i>	F	G	M	5	M	6
A. E. KUNDERD (K) Rose pink, ruffled, crimson blotch <i>Its strength is in size and ruffling.</i>	F	G-R	LM	5½	M	5

BERTY SNOW

*One of the very best lavenders. If you do not have it, be sure to include it.
Listed on following page.*

Variety — Originator — Color and Markings	Sub.	Type	Blm.	Dia.	No
			Sea.	In.	Ht. Out
APRICOT GLOW (Pal) Clear apricot, buff throat	G	PG	M	4½	M 6
<i>One of the finest prim. grands. and parent of many of Palmer's finest varieties.</i>					
ATTENTION (Blake) Peach red, Martius yellow throat	G	G	E	4½	T 6
<i>A Van Fleet seedling of much stronger color and better substance. Strong wiry stems and good placement. Offered for first time and at a price so you can try it.</i>					
AVE MARIA (Pf) Medium violet blue, red feather	G	G	EM	4½	T 8
<i>This is one of the best light blues. Makes fine spike and blooms are well placed.</i>					
BAGDAD (Pal) Smoky rose, lighter throat, lined ruby	G	PG	LM	6	T 7
<i>Worth while in all respects—color, growth and propagation.</i>					
BELINDE (Pf) Clear light yellow	G	G-R	M	6	M 5
<i>Fine color and size but sometimes crooks.</i>					
BENGAL BEAUTY (El) Orange, flecked chocolate, yellow throat	G	G	LM	5	T 6
<i>Has good color and size. Its one fault is poor foliage.</i>					
BENTLEIGH (Gil) White, cream throat, penciled purple	G	G	LM	4	M 8
<i>Although not as pure color as some, this looks as though it might have exhibition value.</i>					
BERTY SNOW (M) Light lavender, lighter throat	G	G	EM	4½	M 9
<i>Hard to beat. Color not generally up to Minuet but better grower.</i>					
BETTY NUTHALL (Sal) Apricot orange, throat penciled red	E	PG-R	L	4½	T 8
<i>Its lovely color, late blooming season and fine growth make this variety indispensable.</i>					
BIG NAN (Adams) Brown orange, red and yellow throat	G	G	LM	5½	M 5
<i>Striking showy color. Short from small bulbs but good height from large ones.</i>					
BILL SOWDEN (Fallu) Deep red, flecked darker	G	G	L	5	M 6
<i>One of best new reds but not as strong a grower as Commander Koehl with us.</i>					
BIRD OF PARADISE (Crites) Rose, white midrib	G	G-R	EM	5½	S 4
<i>Has good size but seems rather short.</i>					
BLENN (Bales) Pink, cream throat, lined red	G	PG	EM	6	M 5
<i>A strong grower with very wide flower.</i>

MAGNA BLANCA (Sal.) White with yellow blotch	G	G	M	5	T	6
<i>Certainly a tall grower. Should be supported to prevent crooking and falling over.</i>						
MAID OF ORLEANS (Pf.) White with cream throat	G	PG	LM	5½	T	7
<i>One of the best whites. Lovely form and becoming very popular.</i>						
MAMMOTH WHITE (Pf.) Very pure white, best exhibition	G	G	L	6½	T	8
<i>This is our favorite. Has fine color and makes an immense spike. Don't do without this any longer.</i>						
MAORILAND (Whiteley) Salmon red, overlaid and flecked blue	G	G	M	5	M	5
<i>A New Zealand smoky of attractive coloring.</i>						
MARMORA (Er.) Lavender gray, with petunia purple blotch	E	G	M	5½	T	10
<i>This variety is becoming plentiful and cheap but you can't beat it at any price. It is a wonder from all points of judging.</i>						
MARNIA (Kemp) Orange with yellow throat	G	G	LM	4	M	7
<i>In its color class this variety is the best at the price.</i>						
MAROCCO (Pf.) Deep red, flecked black, white midrib	G	G	M	5	T	8
<i>Another outstanding variety whose good propagating qualities have brought it down to a low price. Its shiny dark color is very attractive and we place it at the top of its color class.</i>						
MAROLEE (Carpenter) Rose pink, yellow center, edged flame....	G	G	E	6	M	6
<i>A flower of many virtues and many faults. Does better in cooler climate. Has a charm of its own.</i>						
MARY FREY (Gelser) Lavender with crimson purple blotch....	G	G	EM	4½	M	6
<i>This has become quite popular, but some others are better here.</i>						
MARY GARDEN (Pp.) White with purple throat	G	G	EM	4½	T	6
<i>Haven't been able to give this one sufficient trial.</i>						
MARY JANE COOLE (Houdyshel) Light rose, brownish rose tht.	G	PG	E	4	M	5
<i>A flower that is easy to grow but not very distinct.</i>						
MARY LOCKWOOD (Kin.) Pure pink, light crimson throat	G	G	E	4½	M	6
<i>Perhaps healthier than Rita Beck, but crooks and is hardly so lovely a color.</i>						
MARY O'MINE (Austin-Bales) Very large pure white	F	G	LM	6	M	5
<i>Either very good or very bad. Can make huge flowers but undependable.</i>

			Sea.	In.	Ht. Out
MOORISH KING (Pf.) Very deep maroon, shaded black	G	G	M	5½	T 7
<i>This mammoth Glad vies with Marocco for best dark one. Stronger grower than Marocco but makes so few bubbles that stock continues scarce.</i>					
MOTHER MACHREE (Stevens) Smoky salmon, gold throat	G	G	LM	5	M 8
<i>Very popular and now obtainable at a low price. It is one of the best and no one should be without it.</i>					
MOUNTAIN ROSE (Blake) Rosalene pk., flushed rosalene purple	G	G	E	5	M 6
<i>One of our 1933 introductions. An early rose lavender of good form and substance, that we believe will be useful in filling a want for a dependable commercial variety of early blooming habit. Introduced at very low price.</i>					
MOUNT HOOD (Pp.) White, small rose purple feather	G	G-R	EM	6	T 6
<i>Piper came near getting a world-beater in this one. Its one fault is the attachment of florets to stem. Large size and fine form.</i>					
MR. FREDERICK CHRIST (D) Pure pink, yellow tht., red dots	G	G	M	5¾	T 8
<i>Very fine exhibition sort but poor propagator.</i>					
MRS. F. C. HORNBERGER (Horn.) Good commercial white	G	G	L	4	M 8
<i>If you want a good late-blooming white, you should plant this in quantity.</i>					
MRS. GALBRAITH (M) Salmon pink, mottled and dusted ruby	G	G	M	4½	M 8
<i>This is well worth having. A good color and a good performer.</i>					
MRS. LEON DOUGLAS (D) Salmon pink, cream throat, dotted	G	G	LM	6	T 8
<i>Most everyone has seen this one, but if you haven't enough Douglas, don't neglect to stock up. Many people criticise it but it is probably the best known and best loved Glad of them all.</i>					
MRS. P. W. SISSON (Coleman) Pure pink, lighter tht., rose fhr.	E	G	LM	5	T 8
<i>Another good old-timer that still ranks right at the top.</i>					
MRS. RAY P. CHASE (Mil.) White, yellow throat, flecked pink	E	G	EM	6	T 7
<i>Plant this Glad so it does not bloom in hottest weather and you are likely to get a very marvelous white. Hot weather muddies the color.</i>

MRS. S. A. ERREY (Er.) Salmon orange, deep orange throat	G	G	EM	5	T 10
<i>An outstanding exhibition variety. Makes tremendous spikes of large flowers. Pick early so the sun does not have a chance to fade it.</i>					
MRS. THOMAS RATTRAY (Rattray) Rose pink, white throat	E	G	LM	4½	T 12
<i>This is a real exhibition Glad. In Australia they bloom out 15 or 16 florets. Very poor propagator but a wonderful variety.</i>					
MRS. T. J. KNUDSON (V) Medium violet blue, purple feather	G	G	M	3½	T 6
<i>Looks like the best of Vaughan's new blues. Its color is outstanding.</i>					
MRS. VAN KONYNENBURG (Pf.) Light violet, deep violet fth.	G	G	M	4	T 6
<i>One of Pfitzer's earlier blues and now grown in quantity. Blooms sometimes face upright but we have always considered it a fine variety.</i>					
MR. WM. H. PHIPPS (D) Light salmon pink, lighter throat	G	G	L	5½	T 12
<i>It takes a wonderful Glad to hold its place at the top of the list in spite of the newcomers. Phipps has done this for years and you should have plenty of it.</i>					
NANCY HANKS (Sal.) Orange, edged salmon, deeper throat	G	G	LM	4½	M 6
<i>A good spike of a lovely color. Big prize-winner, especially in England.</i>					
NELLY (M) Rose pink with carmine feather	E	G	E	6	T 6
<i>This is easily one of Mair's best. Cleaner in color than most of his varieties and first class in every way.</i>					
NERISSA (Er.) Salmon pink, edged blue, scarlet blotch	G	G	EM	5½	T 10
<i>One of Errey's best. Has size, many blooms out and besides this is an A1 propagator.</i>					
NEWINGTON (Webb) White, yellow throat, lined red	E	G	LM	5	M 10
<i>One of the Australian favorites. Well thought of for exhibition.</i>					
NOEL L. REEVE (Phillips) Rose pink with lighter throat	G	G	LM	4½	T 12
<i>A Rattray seedling that seems to have all its parent's virtues and is a better propagator.</i>					
OLIVAR (Er.) Light violet veined blue, deep violet blotch	G	G	M	4	M 5
<i>A blue that's different. Not very strong growth. The color is close to true blue, the lighter color being veined darker.</i>					
ORAFLAME (Kemp) Deep yellow, flushed salmon	G	G-R	EM	4	M 5
<i>A very deep yellow of very pleasing form. Well ruffled.</i>					
ORANGE WONDER (Kemp) Orange with yellow throat	G	PG	LM	4½	M 6
<i>Doesn't have as many flowers as some but has good color and is worth while.</i>

			Sea.	In.	Ht. Out
OREGON SUNSET (Pp.) Pure yellow, deeper lip	F	G	E	5	T 8
<i>This Glad is making a lot of friends. A little weak on substance but is large, has good color, and is tall and strong.</i>					
ORIENTAL SILK (A) Old rose, veined yellow, crimson feather	G	G-R	EM	4½	M 6
<i>One of the more popular smokies. A good grower and propagator.</i>					
ORLANDO (Er.) Grenadine red, purple feather on yellow tht.	G	G	LM	4¾	M 10
<i>Errey brought out a good one when he introduced this one. It has good color and size and opens up many blooms.</i>					
OSALIN (Sal.) Orange salmon, with orange penciling	G	G	LM	4½	M 7
<i>The color of this variety is distinct and pleasing. One of Salbach's best.</i>					
OTHELLO (Pf.) Deep violet with crimson purple feather	F	G	M	5	M 6
<i>Very near the color of our Blue Moon, but Othello sometimes crooks and has weaker constitution.</i>					
OUR SELECTION (Ball) Smoky salmon rose, red fth., crm. lip	G	G-R	M	4½	M 10
<i>This variety always has done well for us. It is very satisfactory in all respects and, with many well-faced flowers out, makes a very fine spike.</i>					
PAISLEY (A) Salmon rose, veined blue	G	G	M	4	M 6
<i>Another of Mrs. Austin's good smokies. The color combination is very good.</i>					
PAUL CAMBON (Lem.) Brownish orange, maroon blotch	G	G	EM	5½	T 9
<i>Deserves to rank with that other outstanding French variety, Emile Aubrun.</i>					
PAUL DESCHANEL (Lem.) Rose pink, with rose blotch	G	G	EM	5½	T 8
<i>One of the very best in this none too common color.</i>					
PAULINE KUNDERD (K) Rose pink, cream throat	G	G	M	4½	M 6
<i>This has a clean color but is not very reliable here.</i>					
PAUL FITZER (Pf.) Purple with deeper throat	G	G-R	EM	4½	M 7
<i>One of Pfitzer's older purples. It is a mighty good buy at the present low price.</i>					
PEARL OF CALIFORNIA (Kingsley) Light rose pink, white tht.	G	G-R	LM	4½	T 8
<i>Makes an extra good exhibition spike. Not so dependable as it should be, having a rather weak constitution.</i>					
PELEGRIINA (Pf.) Deep violet blue, black in throat	G	G	E	4½	M 8
<i>Here's the Glad you all want. Best dark blue. Makes a fine spike. Bullets germinate and bloom well. We predict a great future for this one and you should buy it early.</i>

PFITZER'S TRIUMPH (Pf.) Light orange scarlet, deeper lip	G	G	LM	5½	M 6
<i>It seems a pity to see this wonderful variety fall to its present low price. A fine propagator, though, and in spite of the big demand it had to come down. Be sure you have plenty.</i>					
PICARDY (Pal.) Light salmon apricot, deeper salmon feather	E	PG	EM	6	T 7
<i>Here's a real headliner. Its introduction met instant approval and its popularity is increasing steadily. Lots cheaper this year and one of the best buys of them all. Has all the good points.</i>					
PIRATE (Pal.) Light crimson, darker red throat	G	G	M	5	T 7
<i>Another real Glad. Good, strong grower. Fine color.</i>					
PRIDE OF OREGON (Damon) Deep salmon pink, light feather	F	G	M	4½	M 9
<i>This Phipps seedling has quite a few of its parent's good points. Can make a wonderful spike. Darker than Phipps.</i>

Variety — Originator — Color and Markings	Sub.	Type	Blm. Sea.	Dia. In.	No. Ht.	No. Out
PRIDE OF PORTLAND (El.) Light coral red, white throat	E	G	LM	6	M	6
<i>One of Ellis' best. The color is very distinct and it has size and height. Occasionally florets are misplaced, a common fault of strong growers.</i>						
PRIMATE (Crow) Deep yellow, self color	G	PG	LM	4	T	6
<i>Crow is bringing out some fine deep yellow P. G.'s and Primate is one of the best. You'll like it.</i>						
PRIMROSE PRINCESS (Sal.) Light yellow with deeper throat	G	G-R	LM	5	T	6
<i>A good cut flower of fine ruffled form. For a low priced yellow, Primrose Princess is one of the best.</i>						
PRINCE OF INDIA (Childs) Mottled old rose, flaked	G	G	M	4½	M	5
<i>This old smoky is very attractive. It is considered by many as one of the finest colors.</i>						
PSITTACINUS (Species) Brown red, greenish yellow throat....	G	G	M	3	M	7
<i>This wild variety makes a better spike than most of the species.</i>						
PURPLE GLORY (K) Deep purple red, shaded black	G	G-R	M	5	T	6
<i>One of Kunderd's best ruffled sorts. When well grown this still is considered a very fine variety.</i>						
PURPLE VICTORY (Gil.) Purple crimson, light mid-rib	G	G-R	M	5½	T	7
<i>This Australian introduction is considered an improvement on Purple Glory. More trial will determine whether this is a fact.</i>						
QUARTINIANUS (Species) Red color. Latest of all	G	G	L	4	M	4
<i>If you wish to see this bloom, plant it very early unless you have a very long growing season.</i>						
QUEEN MARY (M) Cream white flecked rose pink	G	G-R	LM	4	T	10
<i>Often considered queen of all for exhibition. Not a good propagator and always in demand. Does not do its best here on account of heat.</i>						
RAMESES (St.) Red purple with deep crimson blotch	G	G-R	EM	6	T	7
<i>Here is a husky grower. Very tall and has large size and fine color. Be careful in bulblet germination.</i>						
RAPTURE (Pal.) Grenadine pink, pinard yellow throat	G	PG	M	5	T	7
<i>This appears to be quite a Glad. Probably not up to Picardy but very few are.</i>						
RED GLORY (Pp.) Crimson scarlet, with darker throat	G	G-R	M	5½	T	6
<i>This resembles Purple Glory a lot but color is lighter and brighter. Bulblets are very poor germinators.</i>						
RED LORY (Er.) Deep rose red, crimson blotch	G	G	M	5½	T	12
<i>This magnificent Australian exhibition sort is gaining favor at a fast rate. Our stock will not stand much more selling.</i>

			Sea.	In.	Ht. Out
SCHWABENGIRL (Pf.) Pure pink, deeper lines in throat	G	G	EM	5	M 8
<i>The color of this new Pfitzer variety makes it desirable. Blooms rather closely set.</i>					
SENATOR (M) Salmon pink, cream blotch, slate flaking	G	G	L	5	M 6
<i>This is a strong grower and has a good color. Mair introduced it at a higher price than any of his others.</i>					
SENRITA (Langlois) Orange brown	F	G-R	M	3½	S 5
<i>Not very large and fades in hot sun but the color is extremely lovely.</i>					
SEPTEMBER MORN (Howard) Pink, orange and white blotch	G	G	EM	5	T 6
<i>A fine lusty flower. The color is good and the growth extra strong. Believe it has fine constitution but don't overfeed as it might get rather coarse.</i>					
SETTING SUN (Pp.) Deep yellow, clouded red	G	G	EM	3½	M 8
<i>An attractive color. Has many blooms open.</i>					
SKYLARK (England) Lavender gray with red feather	G	G	EM	3½	M 5
<i>Not very strong grower but its distinct color makes it sought after. We are unable to find out much concerning the source of the variety except that it came from England.</i>					
SMILING MAESTRO (Christ) Deep salmon orange, flaked brown	G	G-R	M	6	M 6
<i>Rev. Christ found a good one here. Its huge ruffled flowers possess very fine coloring.</i>					
SOLVEIG (Prestgard-Baerman) White, carmine feather	E	G-R	LM	6	T 5
<i>Fine form and substance and no Glad can surpass it in the latter quality. Florets are large. If this variety propagates successfully it has a future.</i>					
SPIRIT OF ST. LOUIS (Mueller) Dull orange, throat dotted red	E	G	EM	4	M 7
<i>This is a sort of pastel shade but its soft color adds to its attraction. An extra good commercial.</i>					
SPRAY OF GOLD (Pal.) Deep yellow self	G	PG	E	4	M 6
<i>A very good clear color. Looks most promising.</i>					
STAR OF THE SEA (El.) Deep salmon pink, orange and gold tht.	G	G	EM	5½	M 5
<i>One of Ellis' best. The way the center lights up the flower is quite attractive.</i>					
STATELY LAVENDER (Kin.) Light lavender penciled purple....	F	G	M	4¼	M 7
<i>The ground color is light but very heavily penciled. We are trying it again.</i>					
STUTTGARDIA (Pf.) Glowing orange red, darker feather	G	G	M	5	M 7
<i>We have always liked the glowing color of Stuttgardia and would hate to be without it.</i>					
SULTAN (Cr.) Deep rose red, white mid-rib on purple throat....	G	G-R	M	5	M 8
<i>This is a good ruffled sort and seems to do better as it goes along. It is becoming quite popular.</i>					
SUN GOD (Christ) Rose pink, large cream white blotch	F	G	M	5	M 6
<i>Have only grown this once but its size insures it another trial.</i>					
SWANSDOWN (Blake) Lovely pure white, cream dot on lip....	G	G	M	4¾	M 6
<i>Our highest priced introduction of the year. Its lovely color and form are reminiscent of Europa. There is a sort of lacy daintiness about the flower in spite of its size. To all appearances it is practically a self color, the light cream feather not being noticeable.</i>

RED LORY

Two of the greatest exhibition Glads of all time. Both are big sweepstakes winners all over the world. Don't order Red Lory late in season, as supply is short.

MR. W. H. PHIPPS

*Red Lory is listed on page 27;
Phipps on page 24*

Variety — Originator — Color and Markings	Sub.	Type	Blm.	Dia.	No.
			Sea.	In.	Ht. Out
WASAGA (Pal.) Clear apricot, buff throat	G	PG-R	EM	5	T 5
<i>Believed to be Palmer's best 1932 introduction. Some say it is as good as Picardy. Looks like a good performer and color and form are good.</i>					
WHITE PEARL (Pf.) White, with lavender feather	E	G-R	M	4½	M 8
<i>We have always liked this variety because it has such lovely faced spikes and good substance.</i>					
WILLIAM KENT (D) Very fine cream pink	G	G-R	L	5	M 6
<i>This has long been considered one of the best ruffled ones.</i>					
WINGED VICTORY (Br.) Salmon pink, white throat	F	G	M	7	M 6
<i>This is certainly a huge Glad, about biggest of all. Has tendency to crook.</i>					
WINGS OF THE MORNING (Miller-Blake) Pink, lighter tht.	E	G	EM	5	M 9
<i>Get many good reports on this one. Its substance is wonderful, standing the highest temperatures. The Phipps blood allows it to open many florets. Color is good, too, and with best culture has exhibition value.</i>					
WODAN (Pf.) Deep violet blue, white mid-rib	F	G	EM	4	M 6
<i>Extremely dark but does not open very widely. Have a lighter colored strain of this variety of more open form that can be supplied if desired.</i>					
WOLFGANG VON GOETHE (Pf.) Raspberry red, darker pencil	E	PG	M	6	T 7
<i>Although the big flowers may appear floppy, this stands heat with the best of them. Does not do well for some growers but we think it outstanding.</i>					
WUERTEMBERGIA (Pf.) Bright scarlet, cream blotch	G	G	LM	5½	M 6
<i>A big glad of a very fine color. This is considered one of the very best but flower head comes rather short for us.</i>					
YELLOW PERFECTION (Pf.) Pure soft yellow, darker throat	G	G	E	5	T 7
<i>Give this good culture and it is the best yellow in the world. The soft color is extremely attractive and it can be grown tall and strong. Likes plenty of water. Has been a good propagator for us and we have a good stock.</i>					
YVONNE (Vel.) Blush white, with rose feather	G	G	EM	6	T 6
<i>Costs very little money but this should have been a hundred dollar glad. Some who have not tried it do not realize its many good qualities.</i>

Don't overlook the special collections on the outside back cover. We have tried to give you some real bargains there.

On the inside front cover is a collection of our introductions. This gives you a chance to try six new ones at a low price.

Discounts do not apply to collections.

Delphiniums

The Delphinium is one of the most popular perennials now grown and several growers in the Lewiston-Clarkston valley are growing superior strains of this lovely flower. Mrs. Joel Jenifer, of this city, has been working for years on a strain of Delphinium that is greatly superior to the common varieties. The secret of her success is that she never allows a poor plant to grow in her garden, so her stock is continually improving instead of retrograding as occurs when poor stalks are allowed to bloom.

This selected type has very large flowers. Stalks are tall and strong ranging from five to eight feet tall, carrying numerous side shoots which prolong the blooming season. One of the main features is that plants are very disease resistant and are practically mildew proof.

But, as in most flowers, the lovely colors of the Delphinium are its strongest point. Of course blue is the predominating color, ranging from the palest sky blue to the deepest indigo selves, violets and mauves in selves, shaded blue and pink blends, deep blue and red combinations, and some have several colors blended and shaded. Some light colored flowers have white, brown or black bees; also dark flowers, with white, bronze or black bees.

In form, flowers are double, semi-double and single. Aster petal flowers also occur, which are bee-less.

The Delphinium does not reach perfection until the second year's growth but seed sown in the open in April and transplanted to their permanent place in June will give about ninety per cent blooming stalks in late summer. Care should be taken in germination, and we have found it best to plant seed in a cool, shaded place. Do not allow it to dry out.

We have tried for some time to get Mrs. Jenifer to let us market her stock. This has been necessarily small because she so rigorously rogues the plants. There is only one grade of seed and no second grade stock. She has furnished us a small supply for spring selling, which will be allotted to the first buyers. This stock will be shipped in March. Later orders will be filled from new crop which will be ready in August.

Seed furnished in two sizes of packets, 50c and \$1.00.

Gladiolus Seed

Every year we save a moderate quantity of Gladiolus Seed for our own planting. We have never tried to push the sale of this seed very much as it is primarily for our own use. As anyone may realize from the list of varieties we offer, this seed is only from the newer and highest quality sorts.

If you wish to try your luck with some seedlings we will be glad to spare you a limited amount of this seed. Can be furnished in either 50c or \$1.00 packets, differing only in quantity.

Novelty and Standard Varieties of Roses

In our experience in selling Glads, we often have requests for other flowers. So, this season, we have decided to offer you a very high-class list of Roses. These plants are grown for us by a firm of national reputation, located near the Canadian boundary. Stock is all first grade, two-year-old, field grown, budded on Japanese Multiflora. Please do not confuse this with low-grade stock, which we would not care to furnish to our patrons. All prices are prepaid, six of a kind being furnished at five times the single price.

Angele Pernet—Brownish orange, semi-double, some fragrance. Color outstanding. 60c.

Capt. Georges Dessirier—Extremely fragrant, velvety red. Large buds. Bushy plant. \$1.00.

Chaplin's Pink Climber—Broad trusses of clear, soft pink, gold stamens. \$1.00.

Doris Trayler—Long bud, orange cadmium, high-centered flower. Unfading color. \$1.00.

Eblouissant—Polyantha. Glowing, dark red flowers, quilled like little cactus dahlias. 75c.

Echo — Polyantha. Soft pink. Thornless. Resembles climber Tausendschon. 60c.

Ellen Poulsen — Polyantha. True "Baby Rambler" type. Bright rose pink. 60c.

Emile Charles—Sport of Mme. Herriott. Fiery red buds. Bagatelle certificate. \$1.00.

Etoile de Hollande—One of the best reds. Enormous petals. Wonderful fragrance. 60c.

Feu Joseph Looymans—Vivid yellow and apricot. Good growth. Many flowers. 60c.

Gloria Mundi— Polyantha. Very attractive orange scarlet. Almost unfading. \$1.00.

Imperial Potentate—Dark, shining rose pink. Very fine substance. Good bloomer. 60c.

Impress—Cardinal red, shaded orange, luminous sheen. Enormous flowers. \$1.00.

Isobel—Exquisitely pointed buds, opening to large single flowers. Pink flushed orange. 60c.

I. Zingari—Especially vivid orange scarlet. Free bloomer. 12 petals. Strong. \$1.25.

Jacotte (Clbr.)—Deep coppery yellow, tinted red, leathery foliage. Desirable. \$1.00.

James Rea—High centered, intensely fragrant, clear rose pink. Gold medal. \$1.00.

Joyous Cavalier—Brilliant scarlet that does not blue. Vigorous grower. \$1.00.

Killarney Brilliant — Dark pink buds and flowers, Killarney type. Good growth. 60c.

SPECIAL ROSE COLLECTION—One each of any ten 60c roses, \$5.00, prepaid. One each of any five \$1.00 roses for \$4.50, prepaid.

Order Roses early. They should become well established before the weather becomes warm.

Lady Craig—Long buds of lemon cream, opening slowly into creamy blossoms. 60c.

Lady Forteviot—Golden yellow changing into deep apricot. High centered. Fragrant. \$1.00.

Lady Helen Maglona—Brilliant crimson with dark shadings. Gold medal. \$1.00.

Mermaid (Clbr.)—Beautiful pale sulphur yellow single flowers of great size. \$1.25.

Mme. Gregoire Staechelin (Clbr.)—Urn-shaped carmine flowers. Bagatelle medal. \$1.00.

Mrs. Pierre S. du Pont—Pointed reddish gold buds opening to golden yellow. \$1.00.

Nuntius Pacelli—One of best whites. Free from stain, very fragrant. Gold medal. \$1.00.

Queen of Fragrance—Shell pink, double blooms, tipped silver. Fragrant. 60c.

President Herbert Hoover—Cerise pink, scarlet and gold. Wonderful form. \$1.00.

Pimrose (Clbr.)—Large flower, primrose yellow. Most satisfactory yellow climber. \$1.00.

Radiance—Most popular of all roses. Brilliant rose pink. Reliable. Easy to grow. 60c.

Rapture—Pointed buds, blooms of glowing pink of indefinable elegance of form. \$1.25.

Red Radiance—A light crimson sport of Radiance. Has good qualities of its parent. 60c.

Rev. F. Page-Roberts—Long copper yellow buds. Golden yellow blooms, stained red. 60c.

Shot Silk—Rose flushed apricot and yellow. Beautiful and intensely fragrant. 60c.

Souv. de Claudius Denoyel (Clbr.)—Large flowers of crimson tinted vermillion. \$1.00.

Souv. de H. A. Verschuren — Buff yellow, orange center. Perfect form. 60c.

Talisman—Brilliant gold and red buds. Scarlet orange and yellow flowers. 75c.

Victor Waddilove—Long pointed bud; high-centered flowers, orange pink and gold. \$1.

Wilhelm Kordes—Golden salmon, flushed copper-red. Changeable color, very fine. 75c.

Alpines and Rock Garden Plants

Just before press time, we made arrangements with a grower of an extensive list of the rarest Alpines so we can furnish almost anything in this line. We list a few items below and solicit inquiries for any rock-gardening need. All items listed are believed to be hardy except in very coldest climates, and they can endure severe weather if covered with snow.

Aethionema, Coridifolium—Sub-shrubby. Rose lilac flowers. Blue foliage. Dry, sunny location. 4-6 in. 25c.

Alyssum, Spinosum—Spiny, silvery foliage. White flowers. 4-6 in. Dry, drained location. Rare. 50c.

Androsace, Lanuginosa Leichlini—Gritty soil, north rockery. Trailing. White, rose eye. 50c.

Aquilegia, Glandulosa Jacunda—Powder blue and white. 4 in. flowers. 2 ft. stems. 50c.

Arenaria, Balearica—Dark green carpet plant. Many white starry flowers. Rockery. 25c.

Aster Farreri, Big Bear—Rare rock garden aster, violet flowers, orange centers. 50c.

Aubrieta, Moerheimii—Gray foliage, pearly pink flowers. Wall and cover plant. 35c.

Calceolaria, Polyrrhiza—Spreading, dwarf. Dark yellow, purple-spotted flowers. 50c.

Campanula, Allioni—Large lilac flowers, inch stems. Spreading. Fine. Gritty soil. 75c.

Piperi—Holly foliage. Evergreen. Fine blue flower, scarlet stamen. Stock limited. \$1.00.

Rainerii—Grey foliage, inch high. China blue flowers. North exposure. Very rare. 75c.

List of other Campanulas can be furnished.

Cistus, Laurifolius—3 ft. shrub for dry rockery. Large white flowers. Sandy soil. \$1.00.

Cyananthus, Delavayi—Mats of blue flowers, gray foliage. Rock crevices, full sun. \$1.00.

Dianthus, Sundermanni—Pure white, jasmine fragrance. Poor, stony soil; dry, sunny. 50c.

Dodecatheon, Campestris — Cyclamen-like flowers. Deep lavender. 35c.

Conjugens—Pink and white flowers. 35c.

Dryas, Octopetala—Dwarf evergreen shrub; small oak leaves. White anemone flowers. Sun. 50c.

Edelweiss—Genuine variety from Alps. 35c.

Erodium, Chamaedryoides Roseum — Tiny everblooming alpine. Delicate pink-veined flowers. 50c.

Corsicum—From Corsican cliffs. Rose pink, darker veinings. Scalloped soft leaves. \$1.

Genista, Ardoiinii—Miniature broom, golden flowers. From Alps. Nine inches high. \$1.00.

Gentians. Special list available for connoisseurs. Gentians need root moisture, preferably on shady side of cool stone. Peat soil.

Acaulis—Blue trumpet flowers covering dwarf green carpet. From Swiss Alps. 50c.

Sino-Ornata—Immense dark blue flowers, white line thru divisions. 6 inch. Lime-hater. \$2.00.

Geum, Borissii—Evergreen, 10 inch stems. Large orange scarlet flowers. Sun. Moist rich soil. 50c.

Lewisia, Howellii—Rosettes of crested leaves, large sprays of white or apricot flowers, wide band of rose. Sharp drainage. Full sun. 50c.

Onosma, Taurica—Large masses of hairy foliage. Fragrant yellow bells on 1½ ft. stems. Plant high in rockery. Full sun. 50c.

Penstemons—Indispensable for rock garden. Gritty soil. Sun. Special list for collectors.

Fruticosus—Dark green leaves. Fine lilac flowers. 35c.

Phlox, Adsurgens—Native evergreen trailer. 5 in. stems. Salmon pink flowers. Full sun. 50c.

Primula.—Very popular family. We offer a special list of rare varieties to those interested.

Romanzoffia, Sitchensis—Dark green leaves, white star flowers. Requires dark shade. Choice. 35c.

Saxifrages—Reginald Farrer says they are the background of the rock garden. For collectors we shall be glad to send list of the rarest varieties, and for the beginner we can recommend attractive sorts from 25c up.

Sedums—Sun-lovers for dry walls and poor soil. Always attractive. Priced 25c, except for rarer sorts.

Sempervivums — Of easiest culture, being glorious variants of the old "Hen-and-Chickens." Prices, 25c to \$1. Five attractive varieties for \$1.50.

Thymus, Serpyllum Lanuginosa—Grey woolly foliage, lavender pink flowers. Hot, dry soil. 25c.

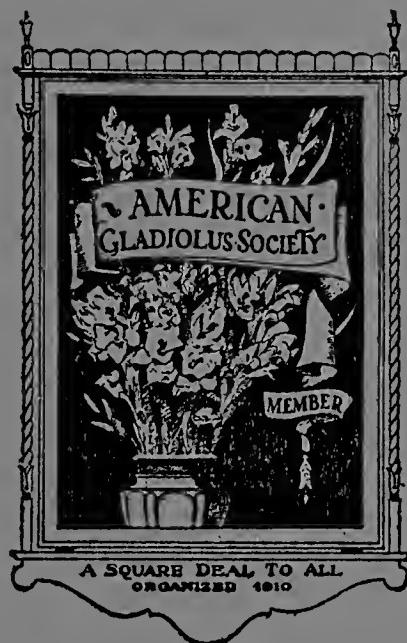

Veronica, Incana—Dwarf, compact. 10 inch spikes, deep violet flowers. Grey foliage. 25c.

Zauschneria, Californica — For sunny rock walls. Large, tubular scarlet flowers. Stands drought. 40c.

All plants priced per each. Twelve at ten times single price. Three at dozen rate.

GLAD SOCIETIES

We are not publishing a list of all the Societies to which we belong as we would not be able to make it complete this early in the season. Suffice to say, we believe that almost all of these organizations are doing a good work and we try to boost them with our support. If you are a Glad fan or commercial grower, belong to the A. G. S. and your sectional and state society as well. We will be glad to forward your membership to any society and we wish to commend the following, especially:

American Gladiolus Society. This organization is one of the leading floral organizations of the world and doubtless much of the popularity of the Gladiolus is due to its efforts. Its organ, the Gladiolus Review, is invaluable to those who are interested in the flower. Dues are \$2 per year and the monthly magazine is worth more than that.

New England Gladiolus Society. Although organized to serve New England, this society has a very large membership all over the world. They are offering an outstanding bargain this season in giving year books for 1932 and 1933, together with a valuable color chart, for only \$1. We assume that the supply of last year's books is limited so urge early application.

British Gladiolus Society. This society publishes a fine year book, full of information from all over the world, and giving us especially the British viewpoint on the Glads of today. This organization, led by two of the world's greatest enthusiasts, is doing a fine work. Amateur dues are only \$1.00; trade members, \$2.00.

Canadian Gladiolus Society. Our friends across the line are well organized and are publishing a year book comparable to the others mentioned. The Canadians are real flower fanciers and are doing especially good work in meeting the thrips situation. Dues are \$2.

Best Bargains, 1933

OFFER NO. 11

Ten each of any ten of the following varieties for \$2; ten each of any 25 varieties plus one large bulb each of Eugenie and Wings of the Morning for \$5. All bulbs one inch up. Labeled. Postpaid. No more than two lots of one variety in \$2 collection or four alike in \$5 collection.
